

VIEW HILL PINOT NOIR

2025

VINEYARD

Clones: MV6, 115 & Pommard

Block: 1A, 1B, 3A, 3B, 4A (CP) & 6A - View Hill Vineyard

This year's View Hill Pinot draws together fruit from six Pinot Noir blocks spread across the Denton hill. MV6, 115 and Pommard clones each contribute their own character, while fruit from our close-planted Block 4 adds an extra layer of detail and energy. The result is a broader snapshot of the site than any single block could provide.

VINIFICATION

The various parcels picked over multiple passes through March - a mix of machine-harvested and hand-harvest fruit. Wild yeast fermented in small open fermenters and open-top stainless steel tanks, extraction was gentle, with light pump-overs over 7-10 days before pressing. Malo was completed in a combination of tank and 500L French oak puncheons (50%). Maturation over 8 months in a mix of new and seasoned oak. Blended in December and bottled in February 2026.

VINTAGE

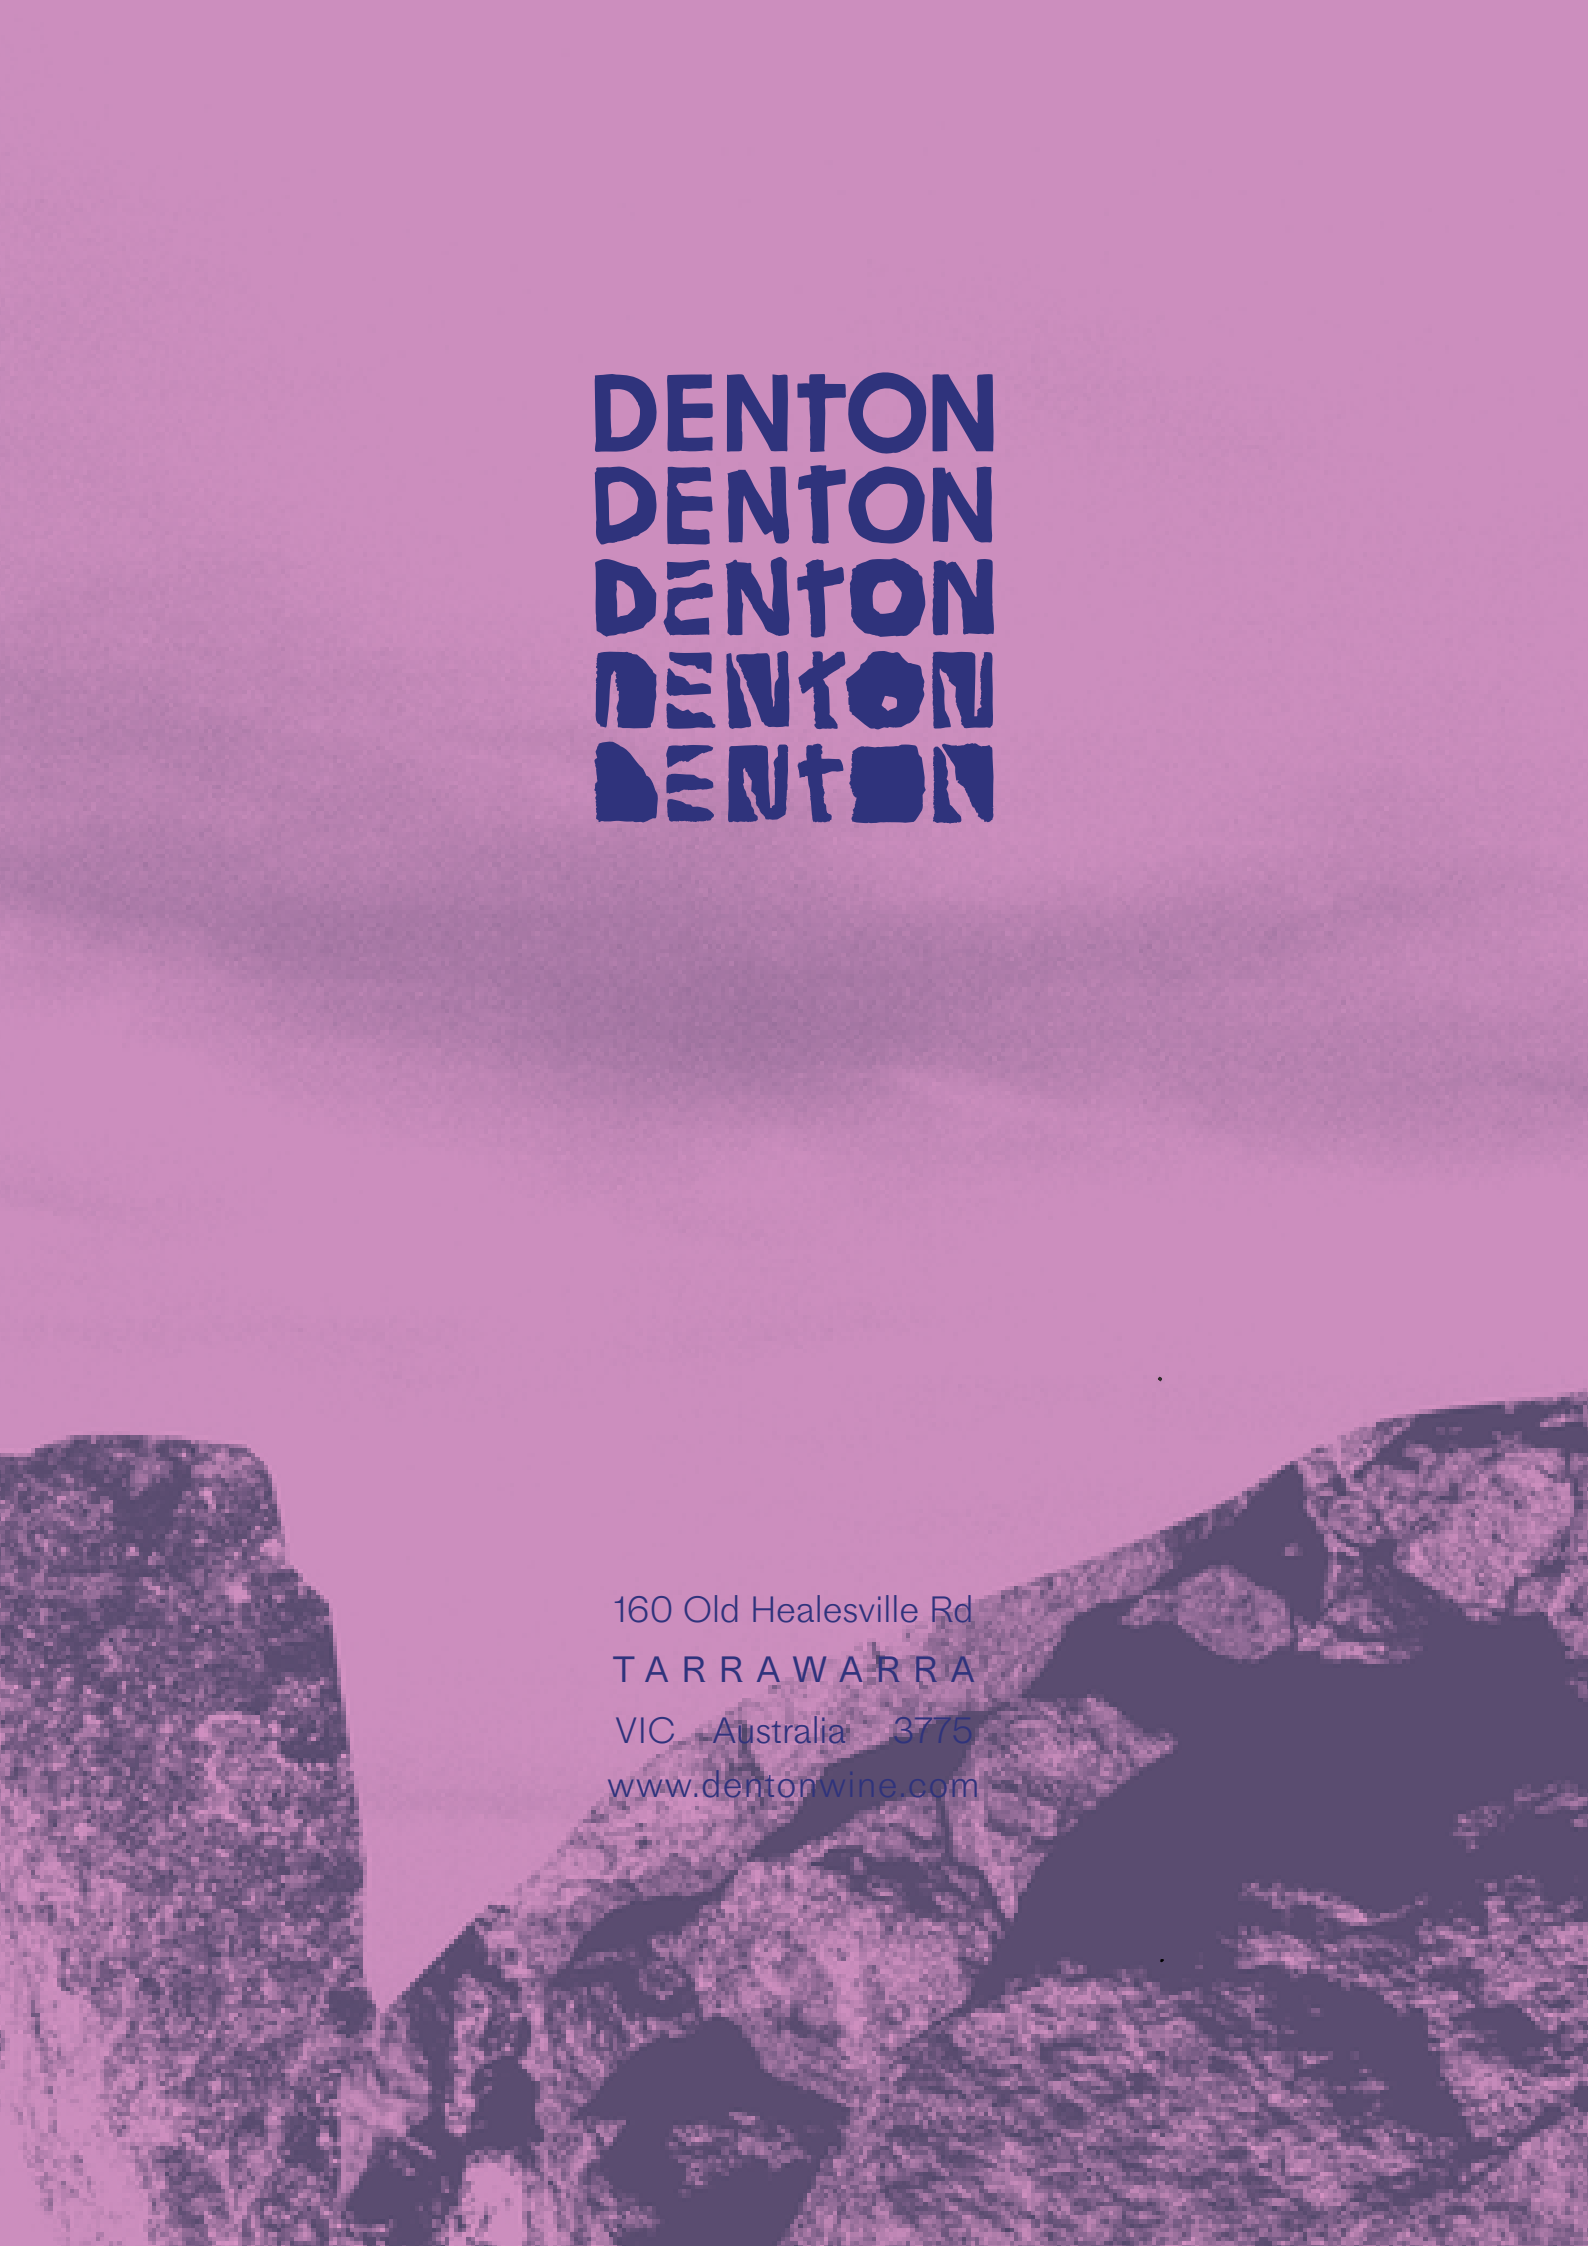

A balanced growing season with good fruit set and a healthy canopy throughout. Warm, dry conditions through late summer delivered clean fruit and even ripening, while cool nights helped retain freshness and aromatic lift.

TASTING NOTE

Dark, wild raspberry, sweet-sour cherry and savoury, slightly smoky spice. Juicy, bright and lifted, with a web of fine tannin. Plenty of substance, threaded along that Denton line.

Alc : 13.5% pH: 3.30 Closure : Stelvin Pack : 12 bottles
